EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 11-13, 23, & 24 have been cancelled.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/27/04 has been entered.

Election/Restrictions

This application is in condition for allowance except for the presence of claims 11-13, 24, & 25 directed to an invention non-elected without traverse in the reply filed in paper no. 7. The noted claims have been cancelled by Examiner's Amendment (see above) and the case has been passed to issue.

Reasons for Allowance

Claims 1-10, 14-22, & 25 are allowed.

The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was the fluid oxygenating apparatus and method of using the apparatus to debubbled the fluid comprising a core having a manifold having an outlet at the top end, a fiber bundle positioned around the core and between the outlet end of the manifold and the fluid outlet, and a bubble release disposed between the outlet end of the manifold and the fiber bundle in combination with the other elements (or steps) in the claims. The arrangement of the bubble release between the outlet end of the manifold and the fiber bundle allows the fluid to flow through the fluid inlet, into the manifold, out the outlet end of the manifold, through the fiber bundle, and out the outlet such that bubbles are released through the release port prior to passing through the fiber bundle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
